Water Restrictions Rescinded for the Grindrod Water System

As supply and demand conditions have returned to normal, the Regional District of North Okanagan (RDNO) has **rescinded** the Grindrod Water Utility water restrictions effective October 7, 2021.

Additionally, feedback from the Grindrod community is still needed on the trial water restrictions implemented this year. This feedback will be used to help develop water restrictions for the future needs of the community.

Please complete the online survey located here www.jitsutech.ca/grindrod by **October 12** (this deadline has been extended to encourage more feedback).

Doing some yard clean up this weekend? Don't forget your taps! Winterize taps to prevent leaks. Removing hoses and protecting exposed pipes from freezing temperatures will help to avoid cracks and leaks in the spring. Visit www.rdno.ca/waterwise to learn more.
