

2022 Field Days

*Irrigation management for
dry conditions and a
changing climate*

Free to attend
Light refreshments provided

3 locations : 3 production systems

Hosted by Certified Irrigation Designers
Bruce Naka and Andrew Bennett

Topics

- Irrigation 101 for different crop types
- How to improve irrigation system efficiencies to adapt to peak water demand
- "Trickle trunk" of irrigation tools to try out
- New irrigation resources for the Okanagan

PLUS: At each field day you could **win a free irrigation assessment** (to help you better understand your irrigation system and how to improve it).
Some restrictions apply.
