Source Change for Parts of Greater Vernon Water Now Complete

The Regional District of North Okanagan has completed the planned infrastructure renewal project, which required switching the water source for many Greater Vernon Water customers. As of Wednesday afternoon (October 30, 2024), affected areas have returned to the Duteau Water Treatment Plant, which is their normal source.

We thank all affected customers for their patience while work was completed. For further details, see the attached map and [original notice](#).
